Dear Sir/Madam,

I am Sithija Menuwantha Hewage, and I am a second-year student in the Software Engineering UGC Batch 3 program.

As a student currently facing financial challenges, financial help would greatly alleviate the financial burden on my family and me. This support would be a significant step toward achieving my goals.

I am truly passionate about my field of study and am dedicated to making the most of my education. With financial help, I could fully immerse myself in my coursework and extracurricular activities, enhancing my learning experience and personal growth.

Thank you for considering the situation of students. I am hopeful and excited about the possibility of receiving this opportunity, as it would provide immense relief and support.

Warm regards,

Sithija Menuwantha Hewage
